## Projects

### BookNBeyond Blog

DEC 2020

Project using *React (Next.js)*, *NPM (Email.js, Remark, Gray Matter, animate.js, AuthO)*. Planned with Trello and Figma. Blog devoted to helping Bootcamp students and self-taught programmers transition into the working world.

### Goal Getter

NOV 2020

*JavaScript (Node.js, Express.js, SequelizeORM, Passport Authentication), CSS (Bootstrap) PostgreSQL, and React*. A time management app for creating goal and task-oriented lists. Planned with Trello and Figma.

### Better Boothang

OCT 2020

*JavaScript (Node.js, Express.js, Twilio API, SequelizeORM, Passport Authentication, EJS templates), CSS (Bootstrap), and PostgreSQL* to automate pre-made messaging to a significant other, the user's "boothang". Planned with Trello and Figma.

---

**Other:** Software Testing, Linux Bash Scripting, Data structures and algorithms, Agile Methodologies

---

## Experience

### General Assembly | Software Engineering Immersive

SEPT 2020 - DEC 2020, Remote

Twelve-week and more than 450 scheduled hours working with JavaScript, React, NodeJS, and Python frameworks through collaborative projects with UX/UI Designers and other Software Engineers.

### Software Tester | Taliferro Tech

FEB 2011 - PRESENT, Seattle, WA

E-commerce, PM, and Email platform using *Angular*.

- Contribute to overall user experience and design details by getting the development team to create a more intuitive help center and workflow.
- Locate errors by reviewing configuration files and logs of *Angular (Karma)* and *Google Dev Tools*.
- Report errors in performance, interface, and functionality such as bad user-acceptance, CSS glitches, or internal linkage issues to development staff and owners.
- Collaborate with developers and product owners to stay current on product features and intended functionality.

### Usability Testing | Carmel Management

APR 2006 - JAN 2011, Redmond, WA

Identified and tracked defects with software and supported developers in resolving problems by noting the user experience.

- Worked directly with quality control, shipping, software development and usability.
- Answered calls from patients with questions about how to fill prescriptions over the phone.
